SUMMARY

Product designer (UX/UI) with 3+ years designing enterprise SaaS, healthcare and consumer booking products, including AI document capture at OpenText and a 1,200+ screen medical records system. Skilled in user research, usability testing, information architecture, prototyping and design systems, with a software engineering background. Currently leading the design of a multi-city website for a non-profit education organization using AI-assisted workflows in Claude and Figma AI. Two years in client research and learning design in financial services.

SKILLS

Design: Product design, interaction design, information architecture, user flows, prototyping, responsive and mobile-first UI, design systems, accessibility (WCAG, AODA)

Research: User interviews, usability testing, A/B testing, personas, journey mapping, heuristic evaluation

AI: Claude, Figma AI (Make, First Draft), AI-assisted research synthesis, prototyping and content, designing for AI products

Tools: Figma, Maze, Jira, Axure RP, Adobe XD, Adobe Creative Suite, Sketch

Collaboration: Stakeholder management, design handoff to developers, user stories, team leadership

PRODUCT DESIGN EXPERIENCE

Program Director and Design Lead

Bhakti Academy | Toronto, ON | Oct 2025 - Present

- Lead the design of a new master website for every city (Toronto, Montreal and future locations), plus a section for temples starting new academies. Launch planned for February 2027.
- Defined the information architecture, user flows and key design decisions, and sign off design in weekly reviews with the development team.
- Used Claude to synthesize stakeholder feedback and draft the site map and user flows, then generated and refined concept wireframes for desktop and mobile with Claude and Figma AI, so developers could start building sooner.
- Use AI tools daily across planning, content, communications and operations.
- Lead a 20-person team running education programs, university outreach and recurring events.

User Experience Designer

Isha Foundation | Toronto, ON | Jun 2022 - Aug 2023

- Led UX for the Linga Bhairavi platform, a global site for ritual booking, events and meditation content.
- Interviewed 7 users and built personas and journey maps that reorganized navigation around the lunar calendar.
- Redesigned booking and payment so 35+ rituals can be booked and paid for online, on mobile and desktop.
- Structured the site for 10+ annual events and 500+ articles and videos, and handed off to the visual design and development teams.

UX Designer
OpenText | Richmond Hill, ON | Jan 2022 - May 2022

- Designed two features for OpenText Core Capture, an AI-powered document classification and data extraction product, helping users review and act on AI-processed documents.
- Took both features from user interviews and competitive analysis through Axure prototypes, built on OpenText's design system, to stakeholder approval.
- Ran remote usability and A/B tests to choose between design directions.

UX Designer
SkyIT Services | Contract | Sep 2021 - Oct 2021

- Audited the UX and designed feature enhancements and branding for a fleet-management ERP platform.

Usability and Content Designer
Canada Post | Internship | Jun 2021 - Aug 2021

- Improved the navigation, content and front-end UI of an internal Microsoft Teams site used by employees across Canada.

UI/UX Design Team Lead
Centennial College WIMTACH | Toronto, ON | Internship | Mar 2020 - Dec 2020

- Led design to modernize a 16-year-old medical records (EMR) system, designing 500+ of its 1,200+ screens across 25+ modules.
- Made the product responsive and AODA-compliant. Remote usability tests with clinic and hospital staff in Zoom and Maze averaged 87% satisfaction, with 83.3% direct success on the login task.
- Maintained the design system and wrote user stories in Jira for the development team.

RELATED EXPERIENCE

Product Trainer, then Financial Sales Representative
TP | Toronto, ON | Sep 2023 - Oct 2025

- Designed training content and scenarios from customer personas, and revised it based on learner feedback.
- Held consultative conversations to uncover customer needs and pain points with financial products, and shared insights with the team.

EDUCATION

Advanced Diploma, Software Engineering Technology (Fast-track), Centennial College, Toronto | 2020 - 2022

B.Tech, Computer Science and Engineering, GGSIP University, Delhi | 2015 - 2019

CERTIFICATIONS

UX and Design Thinking, Interaction Design Foundation (top 10% of class)
